# Milk / Steam Systems

BASIC  
MILK

## Basic Milk

The Basic Milk system is the perfect choice for all classic coffee specialties such as cappuccino, latte macchiato and latte, which are prepared with hot milk and hot milk foam.

EASY  
MILK

## Easy Milk

Enabling you to tap into the market for cold milk mixed beverages as well as hot coffee specialties, the Easy Milk system automatically dispenses cold milk as well as hot milk or hot milk foam via the beverage spout.

SMART  
MILK

## Smart Milk

It's never been easier to serve a wide variety of cold milk mixed beverages and hot coffee specialties. The innovative WMF Smart Milk system automatically dispenses cold milk and warm milk as well as fine-pored warm milk foam, directly from the beverage spout.

DYNAMIC  
MILK

## Dynamic Milk

WMF's Dynamic Milk system offers an even wider range of possibilities, allowing the fully automatic production of 4 different consistencies of hot milk foam and 3 variations of cold milk foam, as well as hot and cold milk. So you can always offer your customers the perfect milk foam for each coffee creation.

BASIC  
STEAM

## Basic Steam

This system can be used to quickly and easily warm a variety of beverages from hot chocolate to mulled wine, and to heat and froth milk manually if requested by your customer.

EASY  
STEAM

## Easy Steam

Designed to prepare hot beverages or to manually froth milk from an external source, this system features a semi-automatic steam wand that switches off on reaching the prescribed temperature, making traditional milk frothing much easier.

AUTO  
STEAM

## Auto Steam

The separate steam wand of the Auto Steam system allows users to customise milk foam density for each individual coffee creation, and produces three different types of milk foam completely automatically at the side. The system also makes it simple to heat milk and prepare a variety of hot beverages.

BASIC  
CLEAN

## Basic Clean

With this manual system, the coffee machine is cleaned using a cleaning solution and water, before being rinsed with fresh water. The spout needs to be manually cleaned each day by placing it in a special cleaning fluid. For machines with Basic Milk or machines without milk systems.

EASY  
CLEAN

## Easy Clean

This fully automatic system for the Easy Milk system uses a special cleaning container and soluble cleaning tablets. After having connected the milk hose to the cleaning container, the machine dispenses water into the container, then cleans and rinses the machine automatically with the cleaning solution and steam. The milk foamer is cleaned manually once a week.

PLUG  
+CLEAN

## Plug+Clean

This patented system uses hot water and steam to clean the milk system by simply plugging the Plug+Clean adapter into the Plug+Clean socket of the machine/cooler. This eliminates the need to dismantle the milk foamer each day, reducing manual cleaning in the cleaning fluid to just once a week.

## Click+Clean

With the Click+Clean system for the WMF 1100 S the adapter has to be attached to the machine's hot water spout instead.

CLEAN  
IN PLACE

## Clean in Place

Our most advanced cleaning system operates in the same way as the Easy Clean system, but with the additional advantage that the milk foamer is also cleaned automatically by the system. It's the ultimate in user-friendly efficiency for all machines with Dynamic Milk system.

SMART  
CLEAN

## Smart Clean

Thanks to Plug+Clean, daily cleaning involves only minimal effort, and system cleaning with Clean in Place is only required after 250 brewings or at the latest after 7 days. With the Clean in Place system, there is no need to manually remove and dismantle the spout for cleaning.

AUTO  
CLEAN

## WMF AutoClean

WMF AutoClean eliminates the need for manual cleaning of the coffee and milk systems. Cleaning granulate for the coffee system is stored in the machine and only needs to be replaced once every 60 cleaning cycles, while cleaning liquid for the milk system lasts 40 cycles. Both are dosed automatically. After the cleaning cycle has been configured just once, the machine will clean itself automatically at the chosen time.

# Features & Innovations

## WMF AUTO CLEAN

THE INTELLIGENT CLEANING SYSTEM,  
ENGINEERED FOR FULL AUTOMATION.

In a groundbreaking, labour-saving new development, manual cleaning of the coffee and milk systems of our Professional Coffee Machines has become a thing of the past. Just configure the cleaning cycle once and the WMF AutoClean system does the rest, independently and automatically. By automating the cleaning process, the WMF AutoClean system further extends the list of innovations introduced by WMF to save time and effort, increasing the profitability of your professional coffee machine.

## WMF CUP GUARD

SAFE SELF-SERVICE USE,  
THANKS TO AUTOMATIC DOOR LOCKING.

The self-closing WMF Cup Guard is a splash-proof door which protects users against the risk of burning or scalding, guaranteeing the utmost safety in your venue. Available as an option with the WMF 5000 S+ and the WMF 1500 S+, the WMF Cup Guard is automatically locked by an electromagnet while a drink is being dispensed, and cannot be reopened until the beverage is ready. For additional protection, cyclical rinsing or starting the cleaning process is only possible when the WMF Cup Guard is closed.

## WMF CUP SENSOR

INTELLIGENT COFFEE SERVICE,  
THANKS TO SMART CUP RECOGNITION.

The Cup Sensor recognises the cup placed on the drip tray, moving the automatic spout to precisely the right distance above it. The machine can even pre-select specific beverages or sizes based on the cup used, eliminating the need for manual selection and minimising the risk of overfilling.

## WMF SMART REMOTE

EASY AND INTUITIVE OPERATION,  
THANKS TO CONTACTLESS ORDERING PROCESS.

The web-based app "WMF SmartRemote" is an innovative tool for ordering and preparing beverages completely contactlessly in the self-service segment. Designed as a web-based application, the WMF SmartRemote solution is compatible with any mobile operating system (iOS, Android, Windows or Linux). There is no need to download and install a specific app. The solution is now available for all connected fully automatic coffee machines in self-service operation.

# WMF CoffeeConnect

COFFEE EXCELLENCE  
MEETS DIGITAL SOLUTIONS

The WMF CoffeeConnect cloud platform lets you harness the potential of digitalisation to optimise sales, service and maintenance, as well as management and accounting. Contactless ordering, mobile payment and third party integration are also supported.

WMF CoffeeConnect provides data-based insights that help you facilitate operations and improve service and cleaning cycles. It gives you the ability to manage your coffee machines easily and assign access rights in line with your needs. You can learn more about your customers' preferences and performance by location, and adapt your portfolio accordingly. You can remotely interact with your coffee machines to adapt prices, roll out campaigns, save costs and increase efficiency. What's more, you can use exported data to investigate new business models or analyse financing or leasing models.

Take advantage of WMF CoffeeConnect lets you visualise data in a clear way, revealing potential improvements that can lead directly to higher machine uptime and consequently higher sales. Reports can be developed and tailored to your requirements, providing the most relevant information in the most effective format. Our data science team would be happy to advise you on the best reporting for your business.

- Visualisation
- Administration
- Interaction
- Custom reports

## Integration\*

Connecting coffee machines to create digital ecosystems has two main benefits. First, it helps you improve the consumer experience by tailoring interfaces to your individual requirements. Second, it enables you to implement smart processes and business process improvement. Our interfaces include functions for data retrieval and exchange as well as for remotely managing your machines. If you rely on standardised equipment, for instance from payment providers, you can connect that too. Our experienced team will be happy to advise you on how to take advantage of the IoT by connecting hardware, systems and smart- phone applications.

- Mobile payment
- Voucher/Loyalty
- Data retrieval & commands
- System integration

Designed  
for  
120 cups  
per day

## WMF 1300 S

RELIABLE COFFEE QUALITY,  
BLENDING ROBUSTNESS AND EASY SERVICE.

### COMPACT SIZE

With its impressively sleek dimensions, the WMF 1300 S is ideal for venues with limited space, and leaves plenty of room for additional coffee machines or add-on-devices in venues where more space is available.

### INTUITIVE MENU SYSTEM

The 7" colour touch display is easy to navigate using intuitive gestures like swiping and scrolling. The menus can be adjusted to meet your requirements, for example for self-service or served venues, while the Pre-Select toolbar offers handy options for staff.

### UP TO 3 HOPPERS

To allow you to offer your customers an appealing choice of beverages, the WMF 1300 S comes with the option of up to two bean hoppers plus one powder hopper [lockable hoppers available].

### DRIP TRAY & CUP STOP

Protection against overfilling is provided by a fill level sensor, and a presence sensor locks the machine if the drip tray is missing. An adjustable cup stop ensures correct cup positioning.

# WMF Accessory Equipment

## CUP RACK

### Cup rack narrow

for 60 – 260 cups / mugs, illumination,  
4 heatable shelves, for all coffee machines

#### Dimensions

W / H / D: 286 / 530 / 539 mm

Power supply 220 – 240 V

**03.9020.0102**

**03.1499.3001**, set of feet (100 mm)

**1,302 €**  
**75 €**

### Cup rack wide

for 88 – 320 cups / mugs, illumination,  
4 heatable shelves, for all coffee machines

#### Dimensions

W / H / D: 368 / 530 / 539 mm

Power supply 220 – 240 V

**03.9020.0002**

**03.1499.3001**, set of feet (100 mm)

**2,094 €**  
**75 €**

## CUP&COOL

### Cup&Cool narrow

for 45 – 190 cups / mugs, stackable, 4.5 litres milk tank,  
illumination, lockable, seal can be removed, 3 heatable shelves.

For all WMF fully automatic coffee specialities machines except  
WMF 1100 S

#### Dimensions

W / H / D: 286 / 530 / 566 mm

Power supply 220 – 240 V

**03.9021.5013**

**2,760 €**

**03.9021.5023**

**3,054 €**

Milk empty message, sensor for milk temperature

**03.1499.3001**, set of feet (100 mm)

**75 €**

### Cup&Cool wide

for 45 – 130 cups / mugs, stackable 9.5 litres milk tank,  
illumination, lockable, seal can be removed, 2 heatable shelves.

For all WMF fully automatic coffee specialities machines.

#### Dimensions

W / H / D: 368 / 530 / 565 mm

Power supply 220 – 240 V

**03.9021.6013**

**3,522 €**

**03.9021.6023**

**3,936 €**

Milk empty message, sensor for milk temperature

**03.9021.6043**

**4,362 €**

Milk empty message, sensor for milk temperature,  
milk hose conduction at the right or left side is possible

**03.1499.3001**, set of feet (100 mm)

**75 €**

## MILK COOLERS

### Countertop Cooler (small)

up to 3.5 l milk, generally lockable, with removable seal.  
For all WMF fully automatic coffee specialties machines.

#### Dimensions

W / H / D: 228 / 344 / 469 mm

Power supply 220 – 240 V

**03.9190.0003**

**900 €**

**03.1299.0001**, set of feet (100 mm)

**75 €**

### Countertop Cooler (small)

up to 3.5 l milk, digital thermostat, generally lockable,  
removable seal. For all WMF fully automatic coffee specialties  
machines. (Depth for WMF 1100 S see page 12)

#### Dimensions

W / H / D: 228 / 392 / 463 mm

Power supply 220 – 240 V

**03.9190.5003**

**1,278 €**

**03.1299.0001**, set of feet (100 mm)

**75 €**

### Countertop Cooler (medium)

up to 6.5 l milk, generally lockable, with removable  
seal. For all WMF fully automatic coffee specialties machines.  
(Depth for WMF 1100 S see page 12)

#### Dimensions

W / H / D: 230 / 353 / 530 mm

Power supply 220 – 240 V

**03.9192.6013**

**1,764 €**

**03.9192.6023**

**2,184 €**

Milk empty message, sensor for milk temperature

**03.9192.6043**

**2,334 €**

Milk empty message, sensor for milk temperature,  
milk hose conduction at the right or left side is possible

**03.1499.3001**, set of feet (100 mm)

**75 €**

## MILK COOLERS

### Countertop Cooler (large)

up to 9.5 l milk, generally lockable, removable seal,  
milk hose conduction at the right or left side is possible.  
For all WMF fully automatic coffee specialties machines.  
(Depth for WMF 1100 S see page 12)

**Dimensions:** W / H / D: 336 / 280 / 533 mm

Power supply 220 – 240 V

**03.9469.7013**

**2,412 €**

**03.9469.7023**

**2,838 €**

Milk empty message, sensor for milk temperature

**03.1499.3001**, set of feet (100 mm)

**75 €**

### Center Cooler / Countertop Cooler

up to 10.5 l milk, generally lockable, with removable seal.  
For all WMF fully automatic coffee specialties machines except  
coffee machines with Basic Milk systems. Milk hose conduction  
at the right or left side is possible

#### Dimensions

W / H / D: 261 / 530,5 / 469 mm

**03.9022.6051**

**2,082 €**

**03.9022.6041**

**2,496 €**

Milk empty message, sensor for temperature

**03.9022.6061**

**2,256 €**

2-Milk-Solution

**03.1999.3001**, set of feet (100 mm)

**75 €**

## MILK COOLERS

**Under-Machine Cooler / Undercounter Cooler**  
up to 9.5 l milk, generally lockable, removable seal.

**Usage:**

Under-Machine Cooler: For WMF 9000 S+  
Undercounter Cooler: For all WMF fully automatic coffee specialties machines except coffee machines with Basic Milk systems. Milk hose conduction at the top.

**Dimensions:** W / H / D: 406 / 265 / 539 mm

Power supply 220 – 240 V

**03.9468.6013** 2,412 €

**03.9468.6023** 2,838 €

Milk empty message, sensor for milk temperature

**03.9468.6033** 2,970 €

2-Milk solution, milk empty message, sensor for milk temperature

**03.1499.3001**, set of feet (100 mm) 75 €

**Under-Machine Cooler / Undercounter Cooler**  
up to 9.5 l milk, generally lockable, removable seal.

**Usage:**

Under-Machine Cooler: For WMF 1500 S+ and WMF 5000 S+  
Undercounter Cooler: For all WMF fully automatic coffee specialties machines except coffee machines with Basic Milk systems. Milk hose conduction at the top.

**Dimensions**

W / H / D: 345 / 300 / 539 mm

Power supply 220 – 240 V

**03.9469.6013** 2,412 €

**03.9469.6023** 2,838 €

Milk empty message, sensor for milk temperature

**03.9469.6033** 2,970 €

2-Milk solution, milk empty message, sensor for milk temperature

**03.1499.3001**, set of feet (100 mm) 75 €

## SYRUP STATION

**Syrup Station**

for WMF 1500 S+, WMF 5000 S+ and WMF 9000 S+,  
for up to four different syrup bottles,  
generally lockable, with removable seal.

**The coffee machines must be pre-configured  
by the manufacturer!**

**Dimensions**

W / H / D: 261 / 530.5 / 469 mm

**03.9023.0001** 3,714 €

**03.1999.3001**, set of feet (100 mm) 75 €

**03.9099.6001**, instant fitting kit for syrup station  
with vending unit 190 €

## MILK TANK

**Milk tank**

removable for standard refrigerators, up to 18 l milk,  
polycarbonate, includes frame and milk empty message,  
standpipe and Plug+Clean hose adapter

**Dimensions**

W / H / D: 460 / 280 / 310 mm

**03.9499.0001** 606 €

## MOBILE COFFEE STATIONS

### Mobile coffee station 125+ (wide)<sup>1</sup>

for WMF 1100 S, WMF 1300 S, WMF 1500 S+,  
WMF 1500 S Classic, WMF 5000 S+ and WMF 9000 S+  
incl. technical group 03.9493.0002

Nominal output / Power supply 3,3 kW / 230 V,  
generally for 230 V versions only

#### Dimensions

W / H / D: 1250 / 900 / 780 mm

**03.9491.0215** 3,990 €

**03.9491.0220**, 4,218 €

with integrated grounds drawer Basic

**03.9491.0221**, 4,410 €

with integrated grounds drawer with telescopic pull-out

### Mobile coffee station 85+ (narrow)<sup>1</sup>

for WMF 1100 S, WMF 1300 S, WMF 1500 S+,  
WMF 1500 S Classic, WMF 5000 S+ and WMF 9000 S+  
incl. technical group 03.9493.0002

#### Dimensions

W / H / D: 850 / 900 / 780 mm

For coffee machines with power supply 220 - 240 V

**03.9491.0201** 3,786 €

**03.9491.0210<sup>2</sup>** 4,014 €

with integrated grounds drawer Basic

**03.9491.0211<sup>2</sup>** 4,410 €

with integrated grounds drawer with telescopic pull-out

#### Advice concerning mobile coffee stations:

Mobile station prepared for fixation of the coffee machines

WMF 1500 S Classic, WMF 1500 S+ and WMF 5000 S+.

In case of use with the coffee machines WMF 1100S, WMF 1300 S or WMF 9000 S+ during order entry the requested combination incl. arrangement needs to be stated in the production memo! With the option "Grounds through counter" please consider this as well for the configuration of the coffee machine!

## COFFEE STATION

### Coffee station 58

for WMF 1100 S, with inlay shelf

#### Dimensions

W / H / D: 580 / 900 / 600 mm

**03.9494.1001<sup>2</sup>** 1,236 €

**03.9494.1201<sup>2</sup>**, incl. integrated grounds drawer 1,470 €

### Coffee station 58+

for WMF 1100 S, without inlay shelf

**03.9494.1101<sup>2</sup>**, incl. technical group 03.9493.002 2,262 €

**03.9494.1301<sup>2</sup>**, 2,502 €

incl. technical group 03.9493.002

and integrated grounds drawer

## TECHNICAL GROUP

### Technical group

with external booster pump, fresh water tank, waste water tank, for WMF espresso, WMF 1100 S, WMF 1300 S, WMF 1500 S+, WMF 1500 S Classic, WMF 5000 S+ and WMF 9000 S+

#### Dimensions

W / H / D: 525 / 620 / 540 mm

Fresh water tank: 25 litres

Waste water tank: 13 litres

**03.9493.0002** 1,002 €

**When using the technical group with a Dynamic Milk coffee machine**, a separate additional lid with full indicator is required:

**33.2803.9000** 131.25 €

<sup>1</sup> Please absolutely state exact combination and arrangement (machine and cooler) in production memo of order.

<sup>2</sup> During order entry the requested combination incl. arrangement needs to be stated in the production memo! The coffee machine additionally requires the option "Grounds through counter".
